

Sharpen Your Pursuit at PursuitCAT.com

Winning DOD contracts has never been tougher. Successful DOD contract pursuit begins well in advance of a renewal or a new bid. The competition is fierce.

The competitive advantage? Up-to-date critical business intelligence. This is where PursuitCAT comes in as a new smart weapon for your business intelligence arsenal.

Don't Go In Blind

Simply responding to data outlined in an RFP or RFQ won't cut it in today's competitive contract environment. To increase your chances of scoring a major contract, you need to know:

- The DOD contracts that your competition has won this year and in years past

- The government agencies that are buying the products you make or the services you provide
- Which prime contractors need components or services that you offer
- Who's already serving major contracts that might need teaming subs like you

PursuitCAT's agile and updated quarterly database instantly provides all of this and more.

The PursuitCAT Advantage

PursuitCAT provides you critical information about each of the hundreds of thousands of DOD contracts issued each year. In fact, PursuitCAT provides over 90 elements of information on each contract.

Here are some additional uses for PursuitCAT

- Put hard facts in your corporate strategic plan like market size, history of awards, agencies that buy your products
- Help find a subcontractor to satisfy mandated set asides (woman owned, veteran owned, small business, etc.)
- Expand your commercial business by winning DOD contracts or subcontracts

Whether you represent a large organization considering a prime pursuit or looking for a space to fit in as a subcontractor, PursuitCAT provides this highly strategic information at your fingertips.

Bring PursuitCAT on Your Team

Business development professionals and contract analysis staff members can waste dozens – if not hundreds – of costly hours searching federal databases for the critical information PursuitCAT provides in seconds.

Take PursuitCAT on a Walk

Want to experience firsthand the power of PursuitCAT before you commit? *A seven-day free trial (using 2007 federal data) is available for you to sample PursuitCAT's rich database muscle.

Take PursuitCAT Off the Leash

Ready to conduct some serious competitive analysis or research new opportunities? PursuitCAT offers several cost-effective ways to bring this powerful online tool into your business intelligence arsenal. If you have department-specific needs or are a small company pursuing a highly vertical category, simply sign up for the NAICS or Claimant Codes that match your contract targets. Need enterprise-level access for multi-year planning? PursuitCAT is available to match ERP needs on a customized basis.

The new version of PursuitCAT is available now at one-time introductory prices. Have unusual or specific needs? Or want a PursuitCAT expert to assemble a one-time customized report for you? Contact Kathy Paton at 866-553-0244 or email kathy.paton@pursuitcat.com for more information.

PURSUITCAT

CONTRACT ANALYTICS TOOL

PURSUITCAT.COM

Scoring Critical DOD Contracts

Going up against a competitor for a contract renewal, want to see who's in your space, or looking for a teaming opportunity on an existing contract? PursuitCAT's agile database serves up critical and targeted information that can punch up your contract pursuit, SWOT analysis or new business prospecting.

Instant Access

PursuitCAT's easy-to-use drop-down menus on the Find Contracts section page enables you to select and drill down instantly into the massive (and often confusing) DOD public contracts database. Whether Navy, Army, Marines or other DOD branches, PursuitCAT instantly retrieves, sorts and displays current contract data.

Eliminate the Guesswork

A special feature of PursuitCAT provides you with the strategic capacity to search by standard NAICS codes, DOD Claimant codes and PSC groupings. No time-wasting fruitless searches here.

Within seconds of entering your data combinations, an interactive listing of current contracts (by your selected federal fiscal year) will appear at the bottom of the screen. Here's where the main value of PursuitCAT comes in for contract analysis.

Critical Information When You Need It

Find a contract you want more information on? Click on the "details" button and critical information about the contracted company and the contract itself will appear. This data-rich feature can save hours of time. Need to put this in a report? Simply click on the export button and you'll have an Excel-ready spreadsheet within seconds.

Find a Company

Check Out Potential Partners or Competitors

Pitch your expertise in a teaming partnership or explore critical data about a competitor. PursuitCAT lets you analyze key information about companies currently serving (or previously serving) contracts that fit your space.

Corporate Performance Profiles

Select the "Find Company" link, enter the company name and then harvest critical information. Using this feature, PursuitCAT will provide you with:

- DUNS data
- Contract Value
- NAICS Information
- Size & Type of Company
- Location
- Active Claimant Codes
- Congressional Offices
- Contract Office
- Products or Services Provided

Need More? Click on the "details" link to drill down further for rich detail.

PursuitCAT even provides you with a Google map link for a physical service location.

Localize Data by State and County

Need to analyze existing contract financial data by individual states? PursuitCAT is on it.

PursuitCAT produces both the 50,000 ft. view of state-related DOD contract activity and county-by-county drill-down aggregate financial data.

Aggregate Data

If you're working to determine aggregate financial data for a SWOT analysis or economic development pursuit, PursuitCAT provides specific exportable data on a county-by-county basis.
